

# Flexibility

## Multi-Flex Wrist with the Utah Arm3

### Motion Control's lineup of new and exciting products!

- **Multi-Flex Wrist** - New Flexible Wrist - also lockable. The Multi-Flex Wrist allows the wrist to follow the hand naturally, just like the natural wrist. It's more comfortable, and the grip's more secure! (Available NOW! Call for a Demo!)
- **MC ETD** - rugged and water resistant, quick response. Options: Wrist, Multi-Flex or 4-position locking, and new Titanium Hook fingers.
- **U3** - improved Silent Freeswing & Lock. (Beta models available now!)

Motion Control TDs and wrists are **not** interchangeable with some other manufacturer's components. Check with us - make sure you can use MC TDs.
