

The ETD that Measures Up...

The Motion Control ETD (*Electric Terminal Device*) measures up to the most demanding wearers. It's rugged, functional, and water resistant - now the preferred choice of hundreds of users.

Features:

- High visibility for fine motor tasks - Classic APRL fingers allow wearers to see what they are holding
- Optional ProHand - Has a controller inside the TD so you can interchange with other manufacturer's systems
- Safety release feature - Release fingers quickly in an emergency
- Quick operation with fine control
- Strong fingers - optional Titanium fingers add even higher ruggedness
- Wide opening
- Optional Flexion or Multi-Flex Wrist
- Optional Protective sleeve - keep the entire forearm dry
- Standard Quick-disconnect wrist - Change easily with other electric TDs and connect to electric rotators - INCLUDING THE NEW MC 2010 ELECTRIC WRIST!

For more on the ETD see www.UtahArm.com - including videos of the new MC 2010 Electric Wrist Rotator.
