

THANK YOU TO OUR PARTNERS FOR MAKING THIS POSSIBLE

"I move my ankles better with my braces."

"My brace has improved getting around school, walking up and down steps, and walking on uneven surfaces."

"My braces help me keep my balance."

"My braces help me walk tall."

"My braces keep me mobile and help straighten my posture."

"Walking naturally is easier with better control and no tiredness or pain."

Mom reports, "Before the brace, Victor wasn't aware of his left hand."

Parent reports, "strengthened leg muscles and a more normal, less rigid looking gait."

"I can't see the metal joints anymore in my shoes and my new braces are lighter and easier to run with."

"The flexibility makes me stronger and helps me especially with horseback riding."

Improved compliance and fewer learned compensations

"Driving is the most important thing my braces help me to do."

Omar is maintaining range and independent ambulation.

The family reports, "Jacob is getting the stretching he needs, has improved balance and stability, and is more upright."

Ultraflex would like to extend its wish for Happy Holidays and success in the coming year in our mutual goal of improving patient quality of life.
