

## TRS PINCH HITTER BAT ADAPTER

### PRODUCT CODES: PINCHITTER

- The Pinch Hitter was initially designed for "Little League" age kids or persons with smaller hand proportions who wish to swing a bat using the function and power of both arms. However the Pinch Hitter is powerful enough and strong enough for adults as well. The Pinch Hitter is constructed entirely of a high performance, flexible, synthetic rubber. It will screw into standard prosthetic wrists or disconnect style wrist adapters.
- The Pinch Hitter snaps on and off aluminum bat handles for safety and needs to be over-gripped with the second hand for security in swinging the bat. It can be used on either the right or left hand side but performs best on the leading arm.

- The flexible Pinch Hitter not only transfers energy but stores and releases energy. This helps to control bat swing, improve swing speed and increase ball hitting distances.

### APPLICATION:

- Young adults age eight and older.
- Adults with smaller hand proportions.
- Right or left absence or partial hand.

### "L" CODE:

2007: L6704

### SPECIFICATIONS:

**Length:** 4.75 in. (12 cm)  
**Width:** 1.5 in. (3.8 cm)  
**Weight:** 3.5 oz. (98 gm)  
**Color:** Matte Black  
**Material:** Proprietary flexible polymer rubber.

## GRAND SLAM BASEBALL/SOFTBALL BAT TD'S

### FEATURES

- *Grand Slam TDs* provide for powerful, smooth, two-handed swings. Releases bat easily. Baseball and softball.
- They require a sound hand to ensure positive grip and stability.
- *Grand Slams* slip onto all aluminum and other bats with one inch diameter handles creating proper hand placement.
- Stainless steel tube construction.
- High performance flexible coupling with braided steel reinforcing duplicates anatomical "wrist break."

*Grand Slams* remain on the prosthesis and will not damage the bat.

- 1/2 in. diameter threaded stud fits any USA made wrist units.

### "L" CODE:

2007: L6704

### MODELS:

#### RIGHT
