

SKI 2

FEATURES:

- The *Ski Device* can be used passively without a cable or with a cable for quick, precision pole plants.
- Especially useful for nordic skiing where upper body power is required for propulsion and in alpine mogul skiing.
- Recreational skiers will find the device very helpful for maintaining general balance and body posture, which are important for safe and proper ski control.
- ½ in. diameter threaded stud fits any USA made wrist units.

- Accepts ⅜ in. dia. and ⅝ in. dia. cable ball fittings.
- Quick disconnect pole system. Adapts to poles from 0.60 in. to 0.75 in. diameter.
- Shock absorbing flexion mount, TRS provides alternate flexion mount in accessory pack.
