

# Accu-Cast<sup>TM</sup>

Advanced Prosthetic-Grade  
Alginate Impression Materials

---

We'd like to show you what we've learned  
about alginate in the past 34 years.

---

*Two terrific formulas available:*

- “390” sets in 3 min. using 90°F water
- “IBG” sets in 5 min. using 90°F water

*Both formulas:*

- Have very high tear strength
  - Have low shrinkage
  - Capture tremendous detail
  - Are easy to use
  - Will save you time and money

One is likely to be perfect for your next job.
