

**PERFECT FIT.
QUICK AND CONTACTLESS PROCESS.**

PATIENT DIGITIZING PROCEDURE

- Non invasive
- Clean
- Patient comfort-minded
- Accurate measurement

MULTIPLE APPLICATIONS

- Orthosis/prosthesis fitting
- Treatment of plagiocephaly
- Scoliosis treatment
- Wound care and burn mask
- Plastic surgery

The **Creaform scanners** offer great possibilities for the O&P industry. They can be used to reduce turnaround times by replacing or skipping steps in traditional methods, and make the process seamless and worry-free for the patients.

Come and meet our partners at orthopaedie + reha-technik to see our technology in action!
