## OrthoLux

The **OrthoLux** is a soft, tri-lam orthosis for comfortable torso support and aggressive spinal motion restriction. It features front, side and rear pockets containing rigid molded polymer panels.

The OrthoLux is a **modular system** – each piece is separately attached by hook and loop panels allowing for impeccable fit and precision.

Hope delivers the form that fits with the results you demand.

**Hope**  **Orthopedic**

Form. Fit. Function.
