

For the past 20 years, OPGA has been the number one source that independent O&P providers turn to when they need support and business solutions. Today, OPGA remains the largest network of independent O&P facilities in the country and offers members a comprehensive array of products and services that address the many demands of providing exceptional patient care and running a profitable practice.

OPGA has ANSWERS

- Medicare Audits
- Practice Management
- Business Development
- Government and Regulatory Affairs
- Education
- Buying Alliance
- And much, much more

Experience the value today!

STAND UP SPEAK OUT

Speak4oandp.com is the premier advocacy platform for O&P practitioners to speak out against CMS audits. It gives independent O&P practitioners the chance to let your voices be heard and tell your stories about the negative impact of audits on your business and your ability to effectively deliver quality patient care. The industry is under attack by egregious policies and unsubstantiated claims, and enough is enough. Together, we can make positive change happen. Stand with us and tell your story!
