

Let's complete  
someone's life today.

### Coyote Design

#### Coyote Composite

- Basalt filament; non-carcinogenic and non-toxic
- Less itch than carbon
- Tough and durable, yet lightweight
- Easy to use for rigid or flexible lay ups
- High saturation; finishes good or better than carbon laminations
- Compatible with all prosthetic resins
- Cost-effective, too!

### Allard USA

#### COMBO™

- Management of genu-recurvatum accompanied with foot drop
- Innovative KO attachment for ToeOFF® or BlueROCKER®
- Super Lightweight – less than 2 pounds!
- Quick release buckles and straps – easy to don and doff
- Rehab programs – eliminates need for 2nd orthosis prescription
- Therapy, Reimbursement & Patient Friendly!

### Fillauer

#### K2 Foot

- Specifically engineered for K2 patients
- Unique flexible keel/multi-axis design
- Flexible, impact reducing design
- Roll-Over Shape (ROS) designed for natural gait
- Compliant dynamics for comfort, stability
- Simple, maintenance-free design
- Assembled in foot shell for easy, "out-of-the-box" fit

**The products you need. The service you deserve.**

There are bigger O&P supply companies out there, sure. But you won't find one that cares more about its customers than PEL. Just ask the people who know us. Or better yet, get to know us yourself. [Learn more at pelsupply.com](http://pelsupply.com)

The Service You Deserve.
