

Together, we'll solve it.

ALPS

Guardian Suction Liner

- Raised GripGel bands grip socket wall creating secure interface between socket and liner to prevent slippage
- Low modulus GripGel bands help ensure no restriction of blood flow
- Single piece construction improves durability; no seams
- Transtibial rings begin 3 ½" from center of distal end
- Transfemoral rings begin 5 ½" from center of distal end
- For volume fluctuations use ALPS ENCP skin reliever for continued use of same socket

Aspen Medical Products

Vista® CTO4

- **Maximum Motion Restriction** – Provides significant motion control in three planes of motion
- **Fully Adjustable** – Front and back panels adjust for patients who require more control of the cervical spine
- **Progression of Care** – As patient condition improves, steps down to Vista® CTO then to Vista® MultiPost Collar
- **Comfort without Compromising Care** – Adjustable and low profile designed for maximum comfort, even in supine position

The products you need. The service you deserve.

There are bigger O&P supply companies out there, sure. But you won't find one that cares more about its customers than PEL. Just ask the people who know us. Or better yet, get to know us yourself. [Learn more at pelsupply.com](http://pelsupply.com)

The Service You Deserve.
