

Changes as your patient **Progresses** to speed **Recovery**.

AdaptaStep™

Patent-Pending

New Proprietary Design Built to Improve the Recovery Process

Variable Flex Technology™ in the new AdaptaStep Recovery Shoe, promotes quicker return to normal gait by changing flex as the patient progresses. Soft, breathable nano-silver lining inhibits infection while breathable fabric upper promotes air circulation to enhance healing. Machine washable shoe includes removable anti-microbial insoles to support the arch and cushion foot.
