

The STS Knee Sleeve

**newest member
of the STS impression series**

HOW TO MAKE A
GREAT IMPRESSION

The STS Knee Sleeve allows you to take a mold for a custom knee brace or KAFO in just 6 minutes. In only 5 minutes after cure time, the mold achieves 90% strength. The STS Knee Sleeve provides excellent conformity to the extremity contours, producing a glass-smooth mold with virtually no wrinkling. The innovative removal system is quick, simple and safe, eliminating the need for a cast saw.

Quick, easy and accurate, the STS Knee Sleeve will leave you with one great impression.
